SKILLS

Frontend
JavaScript, TypeScript
ReactJS, Next.js
TailwindCSS
CSS3, HTML5

Backend
Node.js, Express.js
MongoDB, Mongoose
RESTful API, Postman
FirestoreDB

Tools
Jest, Git, Linux
Figma, FramerMotion

PROJECTS

Socializer   Repo | Live
TypeScript, Node.js, MongoDB, React, TailwindCSS

- Developed a full stack social platform where users can create posts, upload images, customize their profiles and manage friendships
- Increased the fetching speed by **90%** by implementing a SaaS CDN for image manipulation
- Designed a robust **RESTful API** with full **CRUD** operations and **JWT authentication**
- Adhered to **WCAG guidelines** for accessibility, with a **95%+** Lighthouse score overall
- Integrated the **React Context API** and Custom Hooks, ensuring a developer friendly environment

Clonnerboxd   Repo | Live
React, FirestoreDB, Firebase Auth, TailwindCSS, Git

- Replicated a popular social movie tracking platform with a focus on UI/UX and **responsiveness**
- Enabled users to **document** watched movies, mark favorites and provide reviews
- Implemented user login using Google Authentication, alongside a **demo** account option
- Utilized the TMDB **API** to retrive and sort popular movies

Battleship   Repo | Live
JavaScript ES6, OOP, Jest, TDD, CSS3, HTML5

- Implemented **Test Driven Development** practices to construct a classic Battleship game against AI
- Adhered to **Object-Oriented Programming** paradigm principles for all components and game logic

EXPERIENCE

Partnered Content Creator
Twitch, Remote - Nov, 2019 - January, 2023
- Demonstrated a growth-oriented mindset, strong branding skills and discipline
- Strategized and executed engaging video game stream content for a daily audience of hundreds
- Efficiently moderated and collaborated within diverse online communities

EDUCATION

Bachelor of Engineering in Naval Engineering
„Lower Danube" University - Oct, 2016 - July, 2020
